PROJECTS

Eventify - Event Management System: 2025 – 2026
Eventify is an all-in-one event management system designed to simplify the planning and execution of events. It allows organizers to create events, manage registrations, handle ticketing, and track attendees in real time through a centralized dashboard. With features like scheduling, automated notifications, event promotion, and secure payment integration, Eventify streamlines the entire event lifecycle. a course-based web application designed to organize and display educational content efficiently.

Room reservation: 2025 – 2026
Room reservation is a convenient system that allows users to easily book rooms based on their needs and availability. It helps manage room schedules, prevents double bookings, and saves time by providing clear information about available spaces. Whether for meetings, events, or accommodations, the system ensures a smooth and organized booking experience.
